## President's Message

The nights are getting chilly, and soon there will be frost! By now, all your orchids should be indoors, except for *Cymbidiums*. This is the time of year they set their spikes. Leave them out as long as possible. But watch for frost, they cannot survive it. Indoors, *Phals* should be starting to spike. Now is the time to insert stakes in the pots when you see new spikes. As the spikes elongate, loosely tie them up, and do not move the pot relative to the light source. If you move them around, your flowers will go every which way. By paying attention to your plants now, they will be staked and lovely when it's time for the monthly meeting and for the Flower Show!

This month's speaker will be Tom Purviance of Parkside Orchids. His topic will be *Roots! It's all about the Roots!* Tom and John always have interesting talks, and this will be a great culture evening. He will have plants for sale as well.

I look forward to seeing all of you!

-Valerie
